Good morning,

Ms. Matthews passed your concerns onto me about the new hotel potentially being built in La Porte.

Thank you for bringing this to our attention, and I assure you that my inspectors will not be paid off to pass any inspections. We hold all contractors accountable to ensure the safety and well being for the residents of La Porte, or in this case any guests of the hotel.

I have included my Deputy Building Official and my Permit Coordinator in this email chain should you have any other questions or concerns.

Thank you,

Richard Glass | Chief Building Official

Hello ,

I just wanted to give you a heads up on Willis Ghandi building the new Marriott dual hotel . If you come look at the Residence Inn in Galveston that he built and obviously paid the city inspectors off , you would see why he shouldn't be allowed to build another property. You should watch over the project with due diligence. The City of Galveston included fire, plumbing and health should have never passed the place to open.
