Good evening, Council Members,

It is with great pride that I announce a significant achievement within our law enforcement community. Chief Pullig has recently graduated from the prestigious Leadership Command College (LCC) of the Law Enforcement Management Institute of Texas (LEMIT).

Established in 1987 by the Texas legislature, LEMIT is dedicated to enhancing the analytical, administrative, and executive skills of current and future law enforcement leaders across our state. The institute achieves this through comprehensive programs in public administration, law enforcement management, and advanced police technical studies.

The Leadership Command College, a standout program within LEMIT, is recognized nationally as a premier law enforcement management program. It sets the benchmark for excellence in police leadership and executive development. The LCC's curriculum is comprehensive, encompassing all facets of modern police management.

This program is delivered through a consortium of three esteemed state universities: Texas A&M University (TAMU), Texas Woman's University (TWU), and Sam Houston State University (SHSU). Each university contributes its unique strengths, offering a well-rounded and robust curriculum. The program includes a rigorous 3-week in-seat session at each university, focusing on executive development in management, communications, social and governmental issues, executive health and wellness, law enforcement administration, and advanced technical programs and strategies.

Additionally, Sam Houston State University supervises the Leadership Portfolio and Leadership White Paper projects, both of which are critical components for graduation from the LCC.

Chief Pullig's successful completion of this intensive program is a testament to his dedication to professional development and his commitment to excellence in law enforcement leadership. We are fortunate to have such a dedicated and well-prepared individual serving our community.

Please join me in congratulating Chief Pullig on this outstanding achievement.
